1. What is Simple Bundle extension?

Simple bundle will help you to create bundles and manage easily discounts on those bundles.

The screenshot shows a Magento product page for an iPhone 6 plus. The page includes a navigation bar with 'Furniture', 'Electronics', and 'Apparel'. The breadcrumb trail is 'Home / Electronics / Cell Phones / iPhone 6 plus'. The product image shows an iPhone 6 plus with a blue fish on the screen. The product name is 'iPhone 6 plus'. The availability is 'In stock'. The regular price is \$974.25 and the special price is \$866.00. There is a 'Buy 3 for \$81.19 each and save 91%' offer. The quantity is set to 1, and there are 'Add to Cart', 'Add to Wishlist', and 'Add to Compare' buttons. A 'Quick Overview' section says 'The best Phone ever.'.

A red arrow points to a red box highlighting the 'Bundles' section. The 'Bundles' section contains two bundle options:

- Bundle 1:** iPhone 6 plus + Earphones + Case. The bundle price is \$1,065.51 (4.64% discount from \$1,253.54). The discount is -\$58.12. The 'Add to Cart' button is present.
- Bundle 2:** iPhone 6 plus + Drone. The bundle price is \$953.79 (10% discount from \$1,069.77). The discount is -\$105.98. The 'Add to Cart' button is present.

2. Installation

Please see the installation's documentation which is included in the extension's package or available on the extension's product page on restaurant.web-cooking.net.

3. Configuration

Main settings

Log in to the Magento backend. Go to **System > Configuration > WEB COOKING EXTENSIONS > Simple Bundle**. You have to configure a few options:

Simple Bundle

Simple Bundle Configuration		
Always apply bundle discount	<input type="text" value="No"/>	[GLOBAL]
▲ If yes, the bundle discount is applied even if products are added separately		
Exclude Base Product From Discount	<input type="text" value="No"/>	[GLOBAL]
▲ If yes, the base product gets excluded from the discount calculation. This is a general default value, you will be able to specify this per simplebundle.		
Apply sales rules on Simple Bundle product prices ?	<input type="text" value="Yes"/>	[GLOBAL]
▲ For example, you have a bundle with original price of 100 and 10% discount. SimpleBundle discount will be 10. If you add a coupon code with another 10%, the coupon discount will be 10 if no, 9 if yes.		
Behavior when a product of the bundle has a special price.	<input type="text" value="Use lowest price"/>	[GLOBAL]
▲ Use lowest price : Will calculate discount on regular prices. The lowest price between bundle calculated price, and price if added separately will be chosen. Disable Bundle : The bundle will not appear if there is a product in promotion. Cumulate : The bundle discount will be applied on special prices. (Warning, this could be a margin killer). This is a general default value, you will be able to specify this per simplebundle.		
Apply discount on weee ?	<input type="text" value="No"/>	[GLOBAL]
▲ Should be No. Weee are usually fixed product tax that cannot be discounted. Use this option at your own risks.		
Display prices Excl. Tax ?	<input type="text" value="No"/>	[GLOBAL]
▲ If your configuration is set to "Display both excl. and incl." only		

Popup Configuration		
Display all products in popup ?	<input type="text" value="No"/>	[GLOBAL]
▲ If yes, when there is options in bundle products, all products will be displayed in popup		

Always apply bundle discount

If yes, the bundle discount is applied even if products are added separately.

If no, the bundle discount is only when added to cart through the add to cart button of the bundle.

Exclude Base Product From Discount

If yes, the base product gets excluded from the discount calculation.

This is a general default value, you will be able to specify this per bundle.

Apply sales rules on Simple Bundle product prices?

For example, you have a bundle with original price of 100\$ and 10% discount.

SimpleBundle discount will be 10\$.

If you add a coupon code with another 10%, this coupon discount will be 10\$ if no (based on original price), 9\$ if yes (based on Simple Bundle price).

Behavior when a product of a bundle has a special price.

Use lowest price : It will calculate discount on regular prices. Between bundle calculated price and price if added separately, the lowest price will be chosen.

Disable Bundle : The bundle will disappear of your store if there is a product in promotion.

Cumulate : The bundle discount will be applied on special prices. (Warning, this could be a margin killer).

This is a general default value, you will be able to specify this per bundle.

Apply discount on weee ?

Should be NO.

Weee are usually fixed product tax that cannot be discounted.

Use this option at your own risks, and only if you knw what you are doing.

Display prices Excl. Tax ?

This option is needed if your configuration is set to "Display both excl. and incl." only.

Display all products in popup ?

If yes, when there are options in bundle products, all products will be displayed in popup. If no, only products with options will be displayed.

Create Bundle

To create a bundle, you have many ways. Let's start with the easiest:

1. VIA PRODUCT EDIT PAGE

Go to your **Magento Backend > Catalog > Manage Products > Select the main product of your Bundle and go to the Simple Bundle tab.**

ADD A BUNDLE :

The screenshot shows the 'Bundle Items' page in the Magento Backend. The page has a top navigation bar with links like 'Customers', 'Promotions', 'CMS', and 'System'. Below this is a 'Bundle Items' section with a form for creating or editing a bundle. The form includes fields for 'Simple Bundle Template', 'Bundle name', 'Discount Amount', 'Position', 'Active', 'Stores', 'Qty of Bag', 'Exclude Base Product From Discount', and 'Special Price Behavior'. To the right of the form are buttons for 'Add New Bundle', 'Delete Bundle', 'Back', 'Reset', 'Duplicate', 'Save', and 'Save and Continue Edit'. Red arrows and text annotations are overlaid on the image to guide the user:

- 1) Click here to add a new bundle**: Points to the 'Add New Bundle' button.
- 2) Do your settings**: Points to the bundle configuration form.
- 3) Click here to choose the products of the bundle**: Points to the 'Add Selection' button.
- click here to delete the bundle**: Points to the 'Delete Bundle' button.

CHOOSE PRODUCTS:

Stores ▼ All ☒

Qty of Bag *

MAIN SETTINGS:

Bundle Items

+ Add New Bundle

Delete Bundle

Simple Bundle Template *	None
Bundle name	Sweets
	▲ Leave empty to display products names.
Discount Amount *	10
	Percentage
Position *	1
Active *	Yes
Stores *	All <input checked="" type="checkbox"/>
Qty of Bag *	2
Exclude Base Product From Discount *	No
Special Price Behavior *	Use lowest price

Let's focus on the main settings:

As you can see, you can create **templates**, very useful! We will see that in next chapter.

You have to define settings: **name**, **discount amount**, **position** in the product's page's bundle's area, if it is **active or not**, **the stores** where you want to add this bundle, the **quantity of the base product**, exclude or not the base product from discount and the special price behavior we explain in the main settings section.

For the **discount amount**, you can choose percentage OR a fixed value.

To save your bundle, click on « **SAVE** » button or « **SAVE and Continue Edit** » on the right top corner of the page:

✓ The product has been saved.

Bag (Default)

Back

Reset

Delete

Duplicate

Save

Save and Continue Edit

2. CREATE BUNDLE USING TEMPLATES

You can create bundle templates. A template can be used on many products, it is a huge saving tool when you have to apply same bundle's composition to many products. Example: a phone charger to all your phones.

Go to your **Magento Backend > Catalog > Simple Bundle > Simple Bundles Templates**. Then click on **Add New**.

You have to configure your bundle just like as you did it in the product page. You have one more information to give: the name of your template. (this will be used in admin scope only)

Click on « **SAVE and continue to Edit** » .

You will find 3 new tabs on the left:

- **bundle products**: to add products of the bundle:

Template information

- General Information
- Bundle products**
- Template association
- Template association rules

Template has been saved

Edit template 'Template Sweets'
